### Agricultural Problems In Ethiopia: Harjinder Singh ...

Agriculture in Ethiopia is the foundation of the country's economy, accounting for half of gross domestic product (GDP), 83.9% of exports, and 80% of total employment. Ethiopia 's agriculture is plagued by periodic drought , soil degradation [1] caused by overgrazing , deforestation , high levels of taxation and poor infrastructure (making it difficult and expensive to get goods to market).

### Agriculture in Ethiopia - Wikipedia

Ethiopia is also the continent's leading producer and exporter of beeswax and honey. The country has approximately 7 million bee colonies. Other important agricultural activities include tea production, which has reached approximately 4,000 metric tons of output in recent years, and cotton and sugar production.

### Ethiopia Agriculture, Information about Agriculture in ...

Agriculture in Ethiopia has come a long way. If all goes as planned, the country will be food secure within the next 10 years. To achieve that, Ethiopia must cover more ground.

### Ethiopia: fixing agriculture | Africa Renewal

There is a need for sustainable agriculture in Ethiopia because the sustainability of agriculture affects other needs such as food security and water. Food security is accomplished through small-scale irrigation projects which allow communities to produce food and cash crops, vegetables and fruits at least twice a year. Markets are also able to expand beyond local consumption and goods are ...

**Agricultural problems in Ethiopia (Book, 1987) [WorldCat.org]**

Because agriculture is the primary source for Ethiopia's economy, most of its population takes up much of its rural areas than its urban. Smallholder farmers form the largest group of poor people in Ethiopia. These farmers lack basic infrastructure, socially and economically, such as health care and educational facilities.
