Grasshopper O.E.M. Replacement Parts

I have a 2002 Grasshopper 725 with the Kubota 25 hp 3 cylinder engine in it. When I start mowing, I can mow for 1-2 minutes and it starts to die. I open my handles and it restarts fine. If I open my handles before it dies, it will continue to run. I have tried shutting off the pto when it starts to die but that doesn't make it stay running.
