Kustom Signals Car Video System User Manuals Download ...

Eyewitness HD integrates with Eyewitness Vantage body-worn video camera to establish an association between files recorded by both systems, saving you time when searching for these files in the back office. In the car, this integration means in-car video recordings will trigger body camera recordings and vice versa, as well as supporting wireless file transfer from the body camera to the ICV media.

Files are either transferred directly to Kustom's popular Eyewitness Data Vault file management system, or if integrated with Kustom's new Eyewitness HD in-car video system, files can be transferred from the Vantage body camera to the in-car system with a wired connection. And once on the in-car system, files can be played and classified prior to being transferred with the in-car files to the back office.
